

## Healthcare Solution Offerings & Case Studies

### Healthcare Solution Case Studies.

#### HealthCheck of Current MOSS 2007 Environment & Upgradation

The Client having 392-bed comprehensive center for pediatric health care is one of the largest pediatric medical centers in the United States. Microexcel ensured that the system was able to meet the best practices. Also introduced 2010 (beta 2) to highlight similarities and differences between the systems. Phase two will consist of an upgrade to SharePoint 2010 to meet social networking needs of the hospital, deployment of excel services and additional BI tools to meet customer needs in regards to reporting and visibility into data.

#### Architecture and Implementation of MOSS 2007:

Architected and implemented a MOSS 2007 hospital-wide environment. Phase 1 consisted of Design and Planning followed by a 20day engagement to install and configure SharePoint, implement custom branding, test and deploy. Also included planning new BI phases to include customer dashboards and KPI's for use with IT and nursing environments. Phase 2 consisted of roll-out hospitalwide, one department at a time.

#### Planning of Organizational Intranet using MOSS

The Client is a 99 bed governmental entity operated on a not-for profit basis in the State of Kansas: Planning engagement for deploying MOSS 2007 as new organizational intranet. Consisted of planning out linking to applications, branding and deploying Proof of Concept environment.

#### Planning of Portal Solutions using MOSS

The Client is a 112-bed hospital not-for-profit acute care facility with thriving outpatient programs: Introduction to MOSS 2007, planning engagement to introduce the technology and concepts around MOSS 2007. Also included brainstorming around deployment of a new MOSS environment.

## Healthcare Solution Offerings & Case Studies

### Design & Development of Portal Solution using MOSS:

The Client is a leading pharmacy benefit manager (PBM), with the nation's largest mail order pharmacy operations. Through advanced pharmacy, Medco improves the health and lowers the total cost of care for clients and their members: Current project involves building the SharePoint applications for the company along with building solutions which will be used as a foundation for the entire IT department. The application includes extensive development of Site Definitions, List Definitions, Content Types, Web Parts, Custom Page Layouts, Master Pages, Event Handlers, and Work Flows.

### Design & Development of Portal Solution using MOSS:

The Client is New York City Owned Hospital for Health Mental & Hygiene: Roll out the MOSS2007 platform as their primary collaboration portal and as a single point solution framework to automate all the business process using the SharePoint workflows. The content of the SharePoint Collaboration portal is accessible for various User Groups such as "Internal users" (Intranet Access), "Field Personnel" (Intranet and Internet Access) and "Vendors and Partners" (Internet Access).

In Addition to the Collaboration portal, a separate Document center was implemented for the users to scan or upload documents respective to their organizational structure and be able to retrieve these documents through a customized Advanced SharePoint Search with apt security restrictions.
