

Implementation - Oracle Apps 11.5.10.2 version

Microexcel's Oracle Expertise Implementation - Oracle Apps 11.5.10.2 version

The client is a 100 million dollar US Financial Services Company dealing in investment banking, securities and investment management

Business Need

- To implement Oracle Apps 11.5.10.2 version
- To integrate all the Client's online transactions

Solution

A two phased approach was adopted to implement Oracle APPS Project, referred to as SPOC.

- The applications, interfaces and data conversion activities are completed in Phase-1 Financials, Project Accounting, Interfaces and Data conversions
- Implemented and integrated HRMS, Payroll under Phase 2
- AIM Methodology used in implementation.

Oracle Products

- Financials
- Project Accounting
- Human Resources
- Payroll
- Data conversions
- Sun Solaris 2.8
- Oracle Web server (Apache Server)

Major Accomplishments and Challenges

- The integration between the financial system and projects, payroll and HR system was non-existent.
- It was extremely difficult to provide visibility into the operations of the company, both from management and financial perspective.

Results & Benefits

- Gained Operational efficiencies
- Flexible and analytical management reporting
- Supports growth in existing business lines
- Easily manageable financial consolidation
- Provides a more robust and value added self-service customer interface

Implementation - Oracle Apps 11.5.10.2 version

Testimonial

"This implementation has helped us gain operational excellence and the reporting was made so flexible which is very convenient and provided exceptional value added self-service with regards to customer interface"

IT Project Manager
