

Migration of Existing Website from Version 7.X – 9.X with Customizations

The Client

Founded in 1979, the Client is a unique lifestyle retailer that offers a variety of high-quality, reasonably priced merchandise for the home, including furniture, artwork, lighting, tabletop items, textiles and decorative accessories from around the world. With over 1000 employees the Client has 54 retail locations in 18 states in the United States.

Business Need

The Client presently uses rich e-commerce functionality from a previous version of aspdotnetstorefront. It now wants to migrate its website to the newer version on a 64 bit platform for enhanced performance and to make use of the 9.X Version of ASPDNSF which has been tremendously enhanced

Solution:

Microexcel using the following development environment performed migration:

- VS 2008
- SQL Server 2008
- Windows Server with IIS6 and above for hosting
- ASPDNSF - 7.X
- 7.X with customizations
- 9.X for reference
- Dynamsoft for configuration management

Migration of Existing Website from Version 7.X – 9.X with Customizations

Benefits after Migration:

On the Credit Card Section:

- Verification of addresses and validation: Client can now verify the addresses, validate and complete the authorization process with zip at cost of \$ 1
- Error Display: If there is mismatch of address verification, the end user can see the error display.
- Payment Methods Page: Option to pay through Client's Card

On the Gift Card Section:

- Shipping options customized in 7.X version now reflects in migrated codebase
- Shipping with USPS customized.
- Migrated gift card related Payment methods page.
- Splitting of Tendering (Gift & Credit Card)

On the Single Page Checkout:

- Customized single page checkouts at GUI level where in relevant payment methods are displayed.

Testimonial

"The migration and customizations were performed smoothly and efficiently by the Microexcel's team. We are very happy of the outcome and strongly recommend others to utilize Microexcel's expertise for performing similar kind of services".
