

## Master Page Package for SharePoint 2010

### The Client

Founded in 1946, the Client is a global leader in fertilizer manufacturing and distribution; the second largest nitrogen fertilizer producer in the world and the third largest phosphate fertilizer producer among public companies. It owns and operates world-scale nitrogen and phosphate plants and serves agricultural and industrial customers through its best-in-class distribution system. In 2010, the Client acquired a billion dollar nitrogen manufacturing company and positioned as a nitrogen bellwether in the global fertilizer industry and the premier nitrogen and phosphate fertilizer manufacturer in North America. The Client is headquartered in Deerfield, IL, a suburb of Chicago, and has employee strength of over 2400.

### Business Need

The Client approached Microexcel to develop custom master page packages that can be applied to multiple SharePoint site collections and sites, and provide support for the deployment of the master page package for the Client's portal.

### Solution:

Using ASP.NET, SharePoint Server 2010, SharePoint Designer, C#, Visual Studio and SQL Server as platform and skills, Microexcel's offshore center developed a customized master page package for SharePoint 2010.

### Benefits

- Customized master page package that can be applied to all SharePoint site collections and sites which is thoroughly tested.
- With the involvement of graphics, color schemes and themes the look has been totally changed for the better.
- Consistency in the branding of the Corporate and intranet portal.

## Master Page Package for SharePoint 2010

### Testimonial

"Microexcel's offshore team has done a superb job in developing this master page through some extraordinary coordination. We are not only happy with the usefulness of the site but also at the new look of the portal which is very appealing to the eye"

- IT Program Manager and Coordinator
