

**Accelerate Your Digital
Transformation Journey to
SAP S/4HANA with
RapidS4 Migration Services**

Digital transformation is changing the very nature of how businesses operate and engage with customers, employees, suppliers, and partners. To help businesses transition to the digital age, SAP® introduced SAP S/4HANA, its next generation business suite, specifically designed to streamline digital transformation with the ultimate goal to run simple.

Built on the advanced in-memory platform SAP HANA, the new business suite provides a simplified architecture, is packaged with SAP Fiori for personalized user experience, and is available on cloud or on-premise. For customers looking to accelerate their move to SAP S/4HANA, Microexcel

has developed RapidS4, a portfolio of migration services that helps in delivering quick business outcomes. RapidS4 offers a seamless move to SAP S/4HANA utilizing a proven methodology, tools, and accelerators for faster execution for lower downtime and business disruption. With Microexcel's RapidS4 migration services, organizations can benefit sooner from their SAP S/4HANA deployment and enjoy enhanced business agility and operational productivity.

Whether your organization is new to SAP or simply seeking to migrate, Microexcel can help define your roadmap and set a course for SAP S/4HANA via landscape transformations, system conversions and new implementation services (cloud, on-premise and hybrid).

Apply Microexcel's Complete RapidS4 Migration Services for Maximum Benefits

SAP S/4HANA Discovery Workshop

- ▶ Innovation focused workshops
- ▶ SAP S/4HANA solution focused sessions
- ▶ SAP HANA readiness analysis

SAP S/4HANA Upgrade and Migration

- ▶ Project and program management
- ▶ SAP HANA migration
- ▶ Code remediation and testing
- ▶ SAP Fiori deployment and enablement
- ▶ SAP HANA live deployment and adoption
- ▶ SAP S/4HANA Enterprise Management Implementation
- ▶ Re-design of financials and logistics via simple processes (sFIN, sLog)

SAP S/4HANA Roadmap Services

- ▶ Identify target scenarios and architecture to leverage simplification with S-Innovations
- ▶ Understand different migration scenarios that are best for your architecture
- ▶ Help you to plan your adoption of SAP HANA and benefit from SAP HANA platform
- ▶ Define user experience roadmap

SAP S/4HANA Deployment and Integration

- ▶ Deployment of SAP S/4HANA: on-premise or cloud edition
- ▶ Landscape transformation leveraging SAP S/4HANA
- ▶ Integration with Line of Business (LoB) solutions – Ariba, Concur, SuccessFactors, Cloud for Customer, Hybris etc.

Microexcel SAP S/4 HANA Adoption Roadmap

To get the most out of your SAP S/4HANA investment, it's critical to fully understand what the solution can do for your organization and ensure it aligns seamlessly with your business processes. Microexcel has designed a roadmap to unlock the value of your SAP S/4HANA system while staying on-time, under budget and with minimal disruption to your business operations.

We recognize that the adoption of SAP S/4HANA represents a shift in the way you do business. Before the journey can start, the destination must be clearly mapped, and the outcome defined. For this reason, we believe that it is important to begin with an assessment that determines how SAP S/4HANA can transform your organization.

Microexcel's Roadmap to SAP S/4HANA for Your Organization

01
ANALYZE

- ▶ Analyze current SAP landscape to determine technical steps required for implementation
- ▶ Identify important assumptions and variables to reduce implementation risk

02
STRATEGIZE

- ▶ Identify and quantify benefits realized
- ▶ Align financial operations with executive strategy
- ▶ Develop an implementation strategy based on landscape and technical analysis

03
PROVE

- ▶ Build out a proof of concept to communicate intended benefits
- ▶ Verify targeted results are reached through simulations
- ▶ Generate financial savings based on simulations

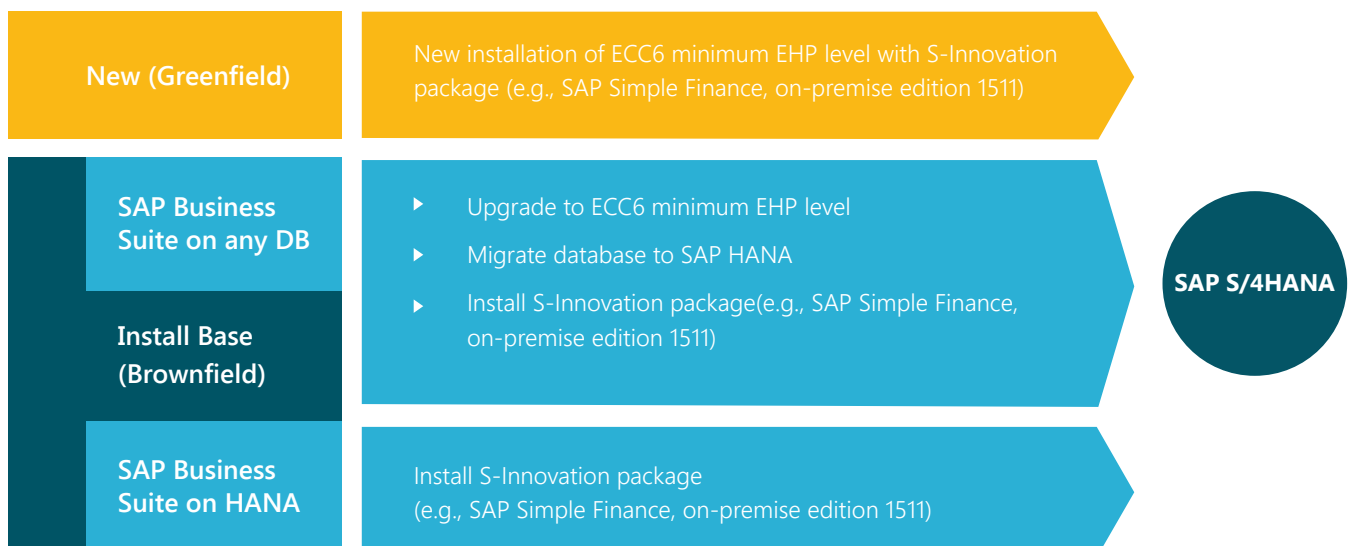

04
IMPLEMENT

- ▶ Execute technical and functional steps to complete upgrade using RapidS4
- ▶ Implement best practice processes based on industry and other relevant variables
- ▶ Migrate > Train > Test > Go Live

SAP S/4HANA Migration Paths

Some organizations may elect not to migrate but rather opt for a "greenfield" installation that simply requires data migration from the old system into a completely new SAP HANA environment.

However, for the majority, a "brownfield" migration is the likely path, moving from existing systems, upgrading and reusing existing system elements selectively.

The Benefits of RapidS4 Migration Services

As an SAP partner, Microexcel has a dedicated SAP Center of Excellence (CoE) that heavily invests in learning and applying new SAP innovation to ensure that customers are benefiting from reduced complexity, and unnecessary costs and constraints. RapidS4 brings all the migration activities together, accelerating the technical steps required by applying proven processes. By applying the right tools, accelerators, lessons learned, and best practices, our dedicated RapidS4 team leverages standardized processes in pre and post migration activities, significantly reducing the time and risk compared with traditional migration approaches.

Our RapidS4 team of certified experts can work with you before, during, and after an implementation to:

- ▶ Reduce IT complexity with simplified finance, logistics, enterprise management and more for an improved user experience.
- ▶ Optimize business operations and performance with streamlined capabilities.
- ▶ Create one version of the truth with consolidated enterprise data with real-time insight.
- ▶ Capture real-time prediction, simulation and analytical capabilities for agile decision making.

Experience the Microexcel Difference

- ▶ Strong local and global SAP S/4HANA and SAP capabilities
- ▶ End-to-end SAP S/4HANA services portfolio
- ▶ Trusted SAP innovation partner
- ▶ Flexible and tailored delivery and shoring
- ▶ Personalized SAP S/4HANA adoption roadmaps
- ▶ Extensive SAP transformation services experience
- ▶ Technology thought leadership
