

Transform Workforce Collaboration with SharePoint Solutions and Services

Today's globally dispersed workforce requires powerful solutions that allow seamless sharing, collaboration, and discovery of information and content. Microsoft SharePoint empowers teamwork from any device, any where and provides a unified platform that enables people to stay connected seamlessly, without boundaries.

As a Microsoft gold partner, Microexcel has a deep background in delivering portal solutions leveraging Microsoft SharePoint. SharePoint's core features including Web Content Management, Document Management, and Forms and Workflow Processes enable it to be utilized as a true application platform. Microexcel provides full services, including support, around your SharePoint needs and has expert, certified teams with deep experience to ensure a successful implementation. We can help you envision, plan, architect, implement, and support your

SharePoint portal needs whether it is a corporate intranet, customer extranet, or if you simply need to host your internet site on SharePoint. Microexcel is an approved Microsoft Managed Services partner and offers flexible delivery options for the day-to-day management of your SharePoint environment and can complement the delivery from internal teams. With our adaptive delivery model, Microexcel works the way you work for the most seamless execution of services.

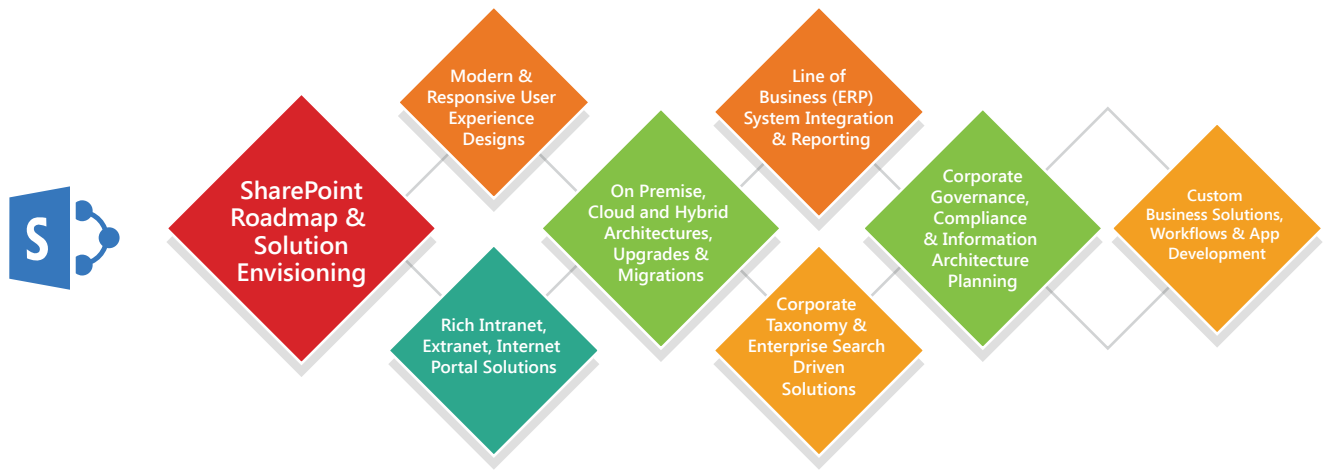

// Microexcel was the obvious choice for their deep knowledge of SharePoint technologies, track record, professionalism, and competitive pricing. Microexcel's development and management teams have the qualities that every customer would like in a vendor. They possess the expertise, the experience, and the drive to deliver a system that will successfully help a company meet their business goals. // - IT Project Manager, Cosmetics Company
